Introduction to R: A Language for Statistical Data Analysis
(Due Friday, January 9)

Go the class home page and follow the links to the R documentation. Find the documentation entitled Simple R by Verzani (PDF version).

1. Skim the Preface page i in case you want to download the simpleR documentation and library of R functions on your own computer.

2. Work through pages 1 to 6 of the Verzani text.

3. Complete the following problems from pages 7 to 8: Problem 2.2, 2.5, and 2.6. Send a copy of your script and R output to me by email.
