Notes on Mastery

Mastery is your time to shine.

How does it work?

1. You'll print off (yes, you must print it off) a mastery sheet from this link:
   http://www.cs.kzoo.edu/mastery/mastery1c1.php

2. WITHOUT using your notes, or your friends, or the MPC, or your book, or…anything except paper and a writing implement, you'll do the problems.

3. You'll bring the sheet and your work to me.

4. We'll go through the problems together.

5. If the problems are all correct, yay! You are a master and are done, having earned an A. If the problems are not all correct, you'll go back to 1), print off a new sheet, and repeat the process until yay, you earn your A for mastery.

The deadline to complete this is 11 am on Friday, Week 10.
